FREE ADMISSION

Seminar 1: 9:00AM – 10:00AM

Subject: "LEED Commissioning – What you need to know"

Presenter: The Stone House Group

Description: The Stone House Group will educate us on the subtleties, and not-so-subtleties, of Commissioning process, and what it all entails. The focus of the presentation will be the important of the Commissioning Process and how it relates to achieving LEED certification for your project.

Seminar 2: 10:30AM – 11:30AM

Subject: "Food-Waste-Into-Electricity – A case study from the kitchen at Elizabethtown College".

Presenters: Steve Bender, the Environmental Services Manager for Elizabethtown College and Tom Dalkiewicz, Engineer for Somat Company of Lancaster, PA.

Description: Discussion of an amazing and unique program/mechanical system for turning Elizabethtown College's food-waste-into electricity that is quite remarkable.

Seminar 3: 12:30 PM – 1:30AM

Subject: "Inspirations from a Global Nomad – A Look Inside Clodagh's Inner-Video"

Presenter: Clodagh

Description: A visitor to more than 90 countries, Clodagh sees herself as a travel guide for her clients, helping lead them to design solutions through her own experiences and point of new on issues that enhance people's lives, such as environmental stewardship. Join us for a design tour-de-force, documenting her encounters and experiences that have inspired her truly ground-breaking designs.

Seminar 4: 2:00 PM – 3:00 PM

Subject: "Is There a Wind Turbine in your future?"

Presenter: Reiner Jackle, the Chief Operations Officer for MetroTek Electrical Services

Description: Reiner and his company have been actively installing both utility grade and commercial Wind turbines for well over 12 years and will discuss with us the ins and outs, ROI, government grants, and other pertinent data.

Seminar 5: 3:30PM – 4:30PM

Subject: "The International Green Construction Code: An Introduction".

Presenter: Jessyca Henderson, the Director for Sustainability Advocacy for the AIA in Washington DC

Description: Discussion of the "IGCC" technical content and how it will affect the design community.
